Valletta Experiences

Valletta was built by the Knights of St. John after the Great Siege of Malta by the Ottomans in 1565. It is the fortified city that was said to be "Built by gentlemen for gentlemen". It boasts over 320 monuments in a .2 square mile radius, is a Baroque capital and is being recognized as the European Capital of Culture in 2018. You'll love what's in store within its main gates - a great mix of history and present day lively culture. Below are some of the included experiences in addition to meandering the main and back streets to discover Valletta`s very interesting history.

Manoel Theatre

The Manoel Theatre is one of the oldest working theatres in Europe. Constructed in 1731 by the Grand Master Antonio Manoel de Vilhena "for the honest entertainment of the Knights"; the theatre is a baroque gem with wonderful acoustics and a full calendar of events populated by local and international performers, with productions in English and Maltese. Maybe there is something on the calendar during your stay?

Grand Master's Palace Staterooms & Armoury

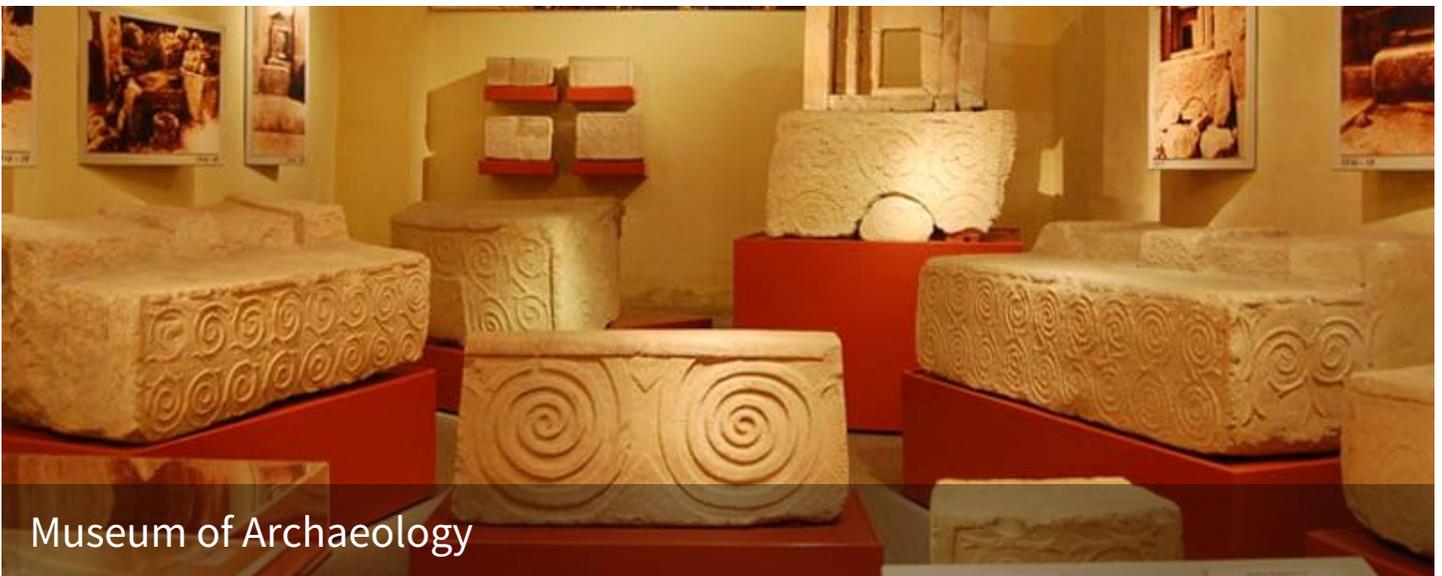

The Grand Master's Palace has been the administrative centre of Malta for almost three and a half centuries. The original palace, built in 1571, was the seat of the Grand Master of the Knights Hospitalliers of St. John and later, during the British colonial period, served as the Governor's palace. Today it is home to the House of Representatives of Malta and the office of the President of the Republic of Malta.

Your visit will include viewing the state rooms that are adorned with beautiful frescos and house rare collections. As an added bonus, visit the Palace Armoury.

National Library of Malta - Private Tour

Situated in the centre of Valletta, the National Library is one of the major treasures of the Maltese Islands. The library preserves the memory of the nation with collections that span the centuries as far back to medieval times. Enjoy this National Treasure accompanied by the National Library Librarian as she walks you through history.

Museum of Archaeology

Not just another museum, the Museum of Archaeology will guide you through our living history dating back to the temple period. Spend a short time here gaining an overview and especially seeing the unbelievable finds from the temple(s) that you will be visiting on your tour. Of special note is the sleeping lady!

St. John's Co-Cathedral - Private Afterhours Visit

Built shortly after the Great Siege of Malta (1565), St. John's Co-Cathedral's austere exterior is in drastic contrast to its sumptuous high baroque interior. You'll be in awe at the artistic masterpiece - from its tombstone laid floors to the vaulted ceiling painted in the life of John the Baptist. Around the corner and into the oratory, stand before two wonderful masterpieces by the artist Caravaggio - St. Jerome and his only signed piece - The Beheading of St. John the Baptist. The best part of this experience is that you'll be experiencing the Cathedral when it is closed to the public. What a treat!
